# ZAKARIA AKHFAS ARROFI

FRESH GRADUATE

○ DETAILS ○

Kp.Bendungan Melayu 002 / 002 Rawa
Badak Selatan, Koja, North Jakarta
DKI Jakarta, 14230, Indonesia
+62 852-0152-5832
zakaria_akhfas@outlook.co.id

Date / Place of Birth
18/04/1996
Jakarta

○ TECHNICAL SKILLS ○

PHP

JavaScript

HTML5

CSS

Python

SQL

Computer Network

Computer Security

Linux

Git

Graphic Design

Adobe Photshop

Corel Draw

Blender 3D

Office

PROFILE

I want to contribute with the expertise I have and want to advance with the ideas that I have. Because I have experience attending various workshop from leading companies, social organizations and education when I was in collage and I was looking for full time work in the role as a Backend Developer in the IT and Telecommunications industry. Did not rule out the possibility I was very able to work outside the IT field.

★ PROJECT HISTORY

E-learning System at SMA Negeri 1 Sirampog Brebes, Central Java
September 2019 – Februari 2020
◦ MySQL database developed, update and organized to handle user data.
◦ Sofrware design and development are directed towards meeting the dient's needs for functionality and performance.

🎓 ACHIEVMENT

Basic Features Discovering for Machine Learning
DQLab Aqademy
July 2020 - Present

Data Cleansing
DQLab Aqademy
July 2020 - Present

Data Wrangling Python
DQLab Aqademy
July 2020 – Present

COMMUNITY

Brebes South Student Community
Human Resource Development Social Service
Yogyakarta, Indonesia
September 2016 - Present

EDUCATION

Informatics, University Technology of Yogyakarta
Sleman, D.I Yogyakarta
September 2015 – March 2020

Social Science, SMA Negeri 1 Sirampog
Brebes, Central Java
July 2012 – April 2020

INTEREST

Able to analyze software and hardware
Able to communicate well
Able to collaborate teams and individuals
Able to learn quickly
Able to work under pressure
Like challenge and new things

PERSONAL SKILLS

PHP
Familiar with the Codeigniter and Native

HMTL
Familiar with the Bootstrap framework and Native

Database
Famililar with SQL, PostgreSQL, Oracle, MySQL, MonggoDB and Cassandra

Linux
Familiar with the Centos 7 and standard security software
